Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

The amendment filed on 10 April 2006 has been entered and overcomes the rejections to claims 1-10.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 20 and 21 are rejected under 35 U.S.C. 102(e) as being anticipated by Yamazaki et al. (US 6,876,007 B2).

Regarding claim 20, Yamazaki ('007) teaches in figure 1A an organic EL display panel comprising a substrate (101) having an EL region; an anode (102) on the EL region of the substrate; a supplementary electrode (103) connected to one side of the anode; an organic EL layer (104) on the anode; and a cathode (105) on the organic layer.

Regarding claim 21, Yamazaki ('007) teaches another supplementary electrode (106) electrically connected to the cathode, the another supplementary electrode made of a material which has lower resistance than a material from which the cathode is made.

Allowable Subject Matter

2. Claims 1-10 and 22-23 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding independent claims 1, 6, and 16, the prior art of record neither shows nor suggest an organic EL display comprised of, in part, a supplementary electrode around the EL region, the supplementary electrode being electrically connected to the cathode, along with the rest of the limitations of the claim.

Regarding independent claim 22, the prior art of record neither shows nor suggest an organic EL display comprised of, in part, a supplementary electrode at each of the EL regions, the supplementary electrode being electrically coupled to a corresponding one of the second electrode, along with the rest of the limitations of the claim.

Due to their dependency, claims 2-5, 7-10 and 23 are necessarily allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
